

How to Build a Business with Artificial Intelligence

Imagine, design, and pitch an AI-powered startup — innovative, scalable, and commercially viable.

Your Pitch Must Answer

What problem are you solving?

Who are your target customers?

How does AI create unique value?

What is your business model?

How will you acquire your first customers?

Why is your solution better than existing alternatives?

Your AI Toolkit

No-Code Platforms

Base44 **strongly recommended**

Large Language Models

ChatGPT, Claude, Gemini

AI Agents

Autonomous task execution

Image & Video Generation

AI-powered visual content

Voice AI

Speech recognition & synthesis

Automation

n8n, Make, Zapier

AI APIs & Cloud Services

Plug into powerful AI infrastructure

 **Pro tip:** Combine no-code speed with AI power to build and validate your idea fast.
